APPROVAL
OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

- This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.
- The total combined duty of water under Permits 54318 and 54319 shall not exceed 10.95 million gallons annually.
- The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.
- This permit is issued under the provisions of NRS 534.120(2) as a preferred use.
- Any well drilled under this permit shall be drilled in what has been described in the United States Geological Survey Water Supply Paper 2263 as the intermediate alluvial aquifer. In no instance shall the seal on this well be less than 100 feet below ground level.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.09 cubic feet per second, but not to exceed 10.95 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before April 9, 1997
Proof of completion of work shall be filed on or before May 9, 1997
Application of water to beneficial use shall be made on or before April 9, 2000
Proof of the application of water to beneficial use shall be filed on or before May 9, 2000
Map in support of proof of beneficial use shall be filed on or before N/A
